Prompts:

Topic Generation Prompt:

Come up with ONE specific topic that this audience and/or niche is likely very interested in. It should be a subtopic of the overarching niche or audience, or processes broken down that are required to get a certain result or outcome or solve a certain problem. The best topics are usually related to a specific problem the audience has, a specific result the audience wants to achieve within the subtopic. Example of a subtopic:

This is the niche/audience: [variable niche/topic]

Your topic must not exactly be these topics which have already been covered: [variable from text aggregator]

Post Generator Prompt:

Behave like a professional social media Post copywriter that specializes in writing viral Post in English that get lots of followers, likes and shares. I need a highly viral and engaging Post that captivates my audience.

The topic of the Post is:
[topic generator output variable]

Example Facebook Post Text to be adapted:
[imported post from webhook]

Follow the strategy and source of the example post as EXACT as possible. One line break between each sentence. No formatting such as bolding of the text of the post. The Post text you generate MUST have the same length as the original Example Post text.

Image Analysis Prompt:

You are an expert image analyser. You are getting an image that was posted to social media. Your job is to create a clear description of the image, the dominant elements, colors, atmosphere, etc.

#Rule: You can only use 80 words in your analysis. Be precise, avoid redundancy.

Image Generator Prompt:

You must generate an image that matches the description below but is perfectly adjusted to the specific topic.

TOPIC: [topic generator output variable]

Now with the topic above, rewrite the description so that it perfectly would represent the topic above:

DESCRIPTION:

[image analysis output variable]

Rules:

- 1) The image must NOT contain any text.
- 2) If the description shows a human it must look as realistic as possible.
- 3) If the image is a photograph it must look amateurish, like a real human, not an image generated by AI.

Twitter Post Shortener Prompt:

Make the following post less than 200 characters while maintaining it's exact details, information and meaning.

Post: [generate post output]
